

## **Buffalo Cemetery Committee**

### **April 25, 2022**

A. **Call meeting to order:** 5:21 pm

B. **Roll Call**

Ted Teel and Austin Mill. In attendance was Public Works Director, Josh Ferkel (on phone) and Deputy City Clerk, Judy Blessing.

C. **Fencing**

Ted Teel said the surveying was almost complete, but the fence was definitely the city's fence. Jim Rogers disagreed. He said he was up there watching them and that it was not on city property. Austin Miller said we used an engineer that we use all the time and trust. Jim Rogers didn't care and don't believe them. Austin will wait for the final paper to prove who the fence belongs to.

More discussion on if there was a fence going up in its place. Ted said that was never discussed. The city had no intentions on putting up a fence, they just wanted to find out whose fence it was. If the home owner wants to put up a fence, she can do so on her own property.

Jeff Moore said he talked to the home owner and she just wanted to know whose fence it was so she could take care of it and get a new one on her property.

It was brought up about possibly putting on the sign a time to close the cemetery.

Ron Meyers said he heard a rumor about a security fence.

Ted Tell said nothing was ever talked about a security fence, but possible just a gate to close at night if they decide to close the cemetery at night.

Josh will talk to the Catholic cemetery to see if they can fix their fence.

Jeff and Ron both said the dirt pile looks bad up there. Jim Rogers said he has said that for years. Josh informed them that it would be moved to the salt storage area. They were waiting for nicer weather.

D. **Mapping sign**

Sign is in. Waiting on the map and key to the map. Was brought up about possible markers in the cemetery to show where the Block and Lots are. That was tabled.

E. **New Building**

Ted would like to see something done with the shed. Possibly painting it or getting a new one in the future.

F. **Entrance**

Ted would like to see something done with the brick work on the entrance, it is falling apart. Also, possibly putting gates up to keep people out at night. Tabled until later date.

I. **Adjournment**

Meeting was adjourned at 5:50 pm
