

Minutes from the Community Development Committee Meeting, May 27, 2026, 5:00 pm:  
Meeting called to order by R. Teel-Vanderpool, with T. Adams and A. Gadzik present.

Buffalo Sign Landscaping - The landscaper that assisted with the design for the area by Casey's stated that the area is 490 sq feet so would require about 6 ton of rock, 98 ft of boarder and some of the landscape fabric to put under the rock. Also, A. Gadzik is going to look for some solar lights. The total cost should be under \$5000. The community development is planning on working on that area on Jun 13-14, 2026, starting at 6:00 pm. Mayor Rodriguez is going to ask public works to remove the railroad ties prior to that date. Motion by R. Teel-Vanderpool, second by A. Gadzik, to approve \$5,000 for the materials needed for this project and to have council approval.

City of Buffalo Signs - Discussed to either repair or come up with a brand new design for the "Buffalo" signs on the entry points of the city. More review and discussion to follow.

Old Business - Discussed the status of Street Scape and will find out the latest status on the funding for the project. Will get with M. Bartleson on information on the mural.

Future Plans/Goals - Plan to either prepare a document or go just talk to businesses about participating in the Buffalo Days parade.
